

**Advanced Package:**  
**\$2,300.00 USD**

## Service Description

**Lead Time:** Three weeks

### Consists of the following

- Database of five prospective suppliers that meet your initial criteria.\*
- Coordinate five sample request from prospective counterparts in Mexico.\*
- Obtain five quotes / Pricing for your product or service.\*
- Import requirements documentation.
- Thorough logistics analysis
- Full company profile\*

### Databases

Global Trade & Management will generate and filter five prospective counterparts that can meet your outsourcing requirements. These five contacts will be previously contacted and informed of your interest in working in Mexico. Thereafter determining their interest in working with your company and an overall analysis of their in-house capabilities, they will be furnished in a report.

### Samples

After determining their interest and capabilities, samples and/or counter samples will be requested. These samples will be requested in accordance to your specifications and thereafter Global Trade & Management will determine the most effective courier service. Samples and shipping will be at the expense of the prospective candidate.

### Quotes/Pricing

Global Trade & Management will request pricing in accordance to the following specification: EX-Works Plant, Packaging Requirements such as cardboard box, boxes per pallet, specific instructions or needs, Approximate Purchase Volume, Delivery Timeframes and Payment terms and conditions.

### Import Requirements

Global Trade & Management will analyze your product and determine its legal classifications and requirements to be able to export from Mexico and import to the US. We will determine your Harmonized Tariff code and identify any special permits or requirements needed. For example, FDA requirements are labeling, food facility registration, FCE registration to

**\* Note: Additional Prospect, Sample and Quote are prorated at \$200.00 per (Additional includes: 1 Contact, 1 Sample, 1 Quote).**

*This service is an easy and fast way to identify suppliers and to determine if your operation could be cost beneficial when it comes down to buying from Mexico. It also gives you glimpse at reviewing samples for quality and durability issues.*
